PATIO PLEASURE

weinor awnings

Kubata  Opal Design II  Semina Life  Cassita II  I/K/N 2000  Semina  Topas
weinor awnings
Excellent quality and design
Resilient and long-lasting: weinor folding arm awnings are a combination of high-calibre design and premium technology. Depending on where you want to install your awning, the desired level of convenience and awning features, you can choose from three awning categories.

**Cassette-awnings**
The cassette keeps the awning fabric and mechanism as safe as houses – the perfect solution if you’re looking for the best-possible way to protect your awning.

**Semi-cassette awnings**
On the semi-cassette awning, the fabric as well as the mechanical parts for the awning roof and retracted drop profile are tucked away safe and sound. For added protection compared to an open awning.

**Open awnings**
An open awning is at the entry level to weinor’s awning world. It is a suitable option if there is an overhang or balcony to protect the awning from the elements.
Design is a question of style – uncompromisingly beautiful shape
Whether classic or modern, weinor awnings stand out for their high-quality materials and aesthetic look and shape. The result is ultramodern technology in a contemporary design. Feel free to choose the awning that best meets your personal tastes and furnishings.
For many years now, weinor has consistently driven innovation in terms of awning design. weinor sets the standards with design and technological features.

**CONVENIENCE**

*For long evenings on the patio – atmospheric LED lighting*
Every awning is optionally available with integrated LED lighting or different light bars. Powerful LED spotlights cast a pleasant, warm white light even when the awning is retracted. Operate and dim your awning using weinor BiConnect radio control. The very energy-efficient LED spotlights last for 30,000 hours.

**TECHNOLOGY**

*True to its name – the weinor LongLife arm*
The appeal of the low-noise weinor LongLife arm is its very high tension force – even in gusty conditions. This ensures the fabric is exceptionally well positioned. Its resilient high-tech belt has undergone 100,000 cycles in a fatigue test. We back this up with a 10-year warranty. Drop-forged aluminium has been added to the arm joint for even greater stability.
Cubic shapes are a popular style element for contemporary facades. The Kubata cassette awning blends ideally into these. With its clear design it complements modern architecture perfectly. But the high-quality technology is also impressive: LED spotlights integrated into the cassette, the weinor LongLife arm, convenient control and large choice of fabrics and colours – leaving nothing to be desired.
The house and awning in harmony

With the Kubata cassette awning the transitions are smooth. With its cubic shape it blends perfectly into modern house architecture as a stylish design element.
Kubata/LED – Highlights and features

Cubic, clean lines – modern contemporary design
The all-round enclosed and robust awning cassette keeps the fabric and other component parts just as well protected from the elements as the controlled rain drainage within the front profile. As a result, you can enjoy your sun protection for many years.

Atmospheric light, powerful warmth
Your options for great comfort: spend pleasant evenings on the patio under LED spotlights that can be dimmed infinitely and are integrated in the awning cassette. You can even enjoy your patio at cooler times with the Tempura Quadra Universal heating system. It can be retrofitted and is unobtrusively fitted to the house facade.

weinor LongLife arm – guaranteed to be resilient and durable
The LongLife arm on the Kubata is extremely quiet, lightweight and yet extremely robust due to the use of drop-forged aluminium.

• exceptionally durable high-tech belt with over 100,000 cycles in fatigue test
• 10-year warranty
• for exceptional fabric positioning

Wind lock safety device – well-sheltered even in winds
Proven technology prevents the awning from lifting up when wind gusts from below:

• Tilting folding arm with wind lock safety device
• Proven, maintenance-free technology
• Forged and extruded aluminium components

Opal Design II/LED
Live it up on your patio

High-performance technology meets high-calibre design – the weinor Opal Design II meets all the demands of a premium cassette-awning. Built to shade large areas, its timelessly classic shape blends in perfectly with any style of architecture. The beautifully-shaped cassette adds some refined sophistication to the facade. A wealth of product highlights makes the awning easy to use, outstandingly convenient in its operation and durable.
The first-class awning with great features

With Valance Plus and integrated LED lighting, the Opal Design II lives up to the highest demands. Multi-section units convert even large patios into well-shaded favourite areas.
Opal Design II/LED – Highlights and features

**Classi c design for those who enjoy spacious patios**
Large, powerful and safe – the Opal Design II has enough to convince even the most demanding patio aficionados.
- timelessly classic design
- certified up to wind force 5
- with weinor LongLife arm (10-year warranty)

**End cap closure – unique and safe closing mechanism**
If you can see the spring loaded clips at the end of the cassette are closed, then the awning is reliably protected against the elements and dirt.
- crescent-shaped cap closes securely with an audible click
- unique, patented solution made by weinor

**Integrated LED lighting for long evenings on the patio**
The Opal Design II LED casts an atmospheric, warm white light for even longer hours of enjoyment on the patio.
- operating life of 30,000 hours
- highly energy-efficient
- infinitely dimmable when used with BiConnect radio control
- can be used even when awning is retracted

**Valance Plus – more privacy, more glare protection**
With its vertical awning, the Opal Design II Valance Plus provides the best-possible privacy, anti-glare and sun protection.
- valance height up to 210 cm
- patented weinor Opti-Flow-System® for the ideal fabric positioning
- coordinated valance control with integrated BiConnect retraction protection

**Multi-section units to shade especially large areas**
On combined multi-section systems, two sections of fabric are connected to one motor. This means they can both be operated at the same time (does not apply to Valance Plus option).
- for spacious patios up to 48 m²
- jockey cover as connector between the units
- LED spotlights asymmetrically distributed on coupled units

Semina Life/LED
A genuine all rounder

Semina Life is the all rounder amongst cassette awnings. It stands out with its fresh design, modern clean lines and many features. This combined with weinor’s tried and tested technology make it such an attractive alternative to semi cassette awnings. Its many unique technical highlights provide superb sun protection, comfort and a long operating life.
Semina Life/LED – Highlights and features

Youthful design with state-of-the-art technology
The Semina Life cassette protects the awning against the weather. The beautifully shaped stainless steel look headplate rings perfectly round off your customised combination of frame colour and fabric pattern.

Semina Life LED – cassette with integrated LED lighting
The LED spotlights integrated into the cassette produce atmospheric lighting on the patio.
- operating life of 30,000 hours
- highly energy-efficient
- infinitely dimmable when used with BiConnect radio control

Valance Plus – vertical privacy and sun protection
The Valance Plus is elegantly integrated into the awning’s front profile. It provides privacy and glare protection even with a low-lying sun.
- continuously extendable up to 210 cm
- patented weinor Opti-Flow-System® for the ideal fabric positioning
- coordinated valance control with integrated BiConnect retraction protection

Cassita II/LED
A jewel amongst cassette awnings

Slim design and jam-packed with technology – with its puristic shape and ultra-slim cassette, the Cassita II is a perfect match for modern domestic trends. With numerous options for added comfort and convenience.
Cassita II/LED – Highlights and features

Youthful living with slim cassette design
For contemporary home decor aficionados: the outstanding feature of the Cassita II is its puristic, harmoniously flat, oval-shaped design
- beautifully-shaped aluminium end caps
- concealed fixings and screws
- easy end fix installation with only two brackets

High-performance technology in minimal space
Fully sheltered: inside the cassette is the very latest in weinor awning technology.
- durable and very quiet weinor LongLife arm (10-year warranty)
- torsion-resistant Optinut tube ensures ideal fabric positioning

LED lighting – long evenings on the patio included
Pleasant summer evenings on your patio – the Cassita II LED provides warm, white atmospheric LED light.
- highly energy-efficient
- operating life of 30,000 hours
- infinitely dimmable when used with BiConnect radio control
- can be used even when awning is retracted

The I 2000 and K 2000 cassette-awnings are true classics. With these weinor offers solutions for any type of building – available with or without a back profile. The N 2000 was especially designed for alcoves, shop fronts and niche installations.
**I2000/K2000/N2000 – Highlights and features**

**Flexible all-rounders for any facade**
With its classic proportions and extensively tested concept, this cassette-awning is the ideal fit for any type of building.

- 1-unit systems up to 7 m in width with 4 m projection
- Durable and very quiet weinor LongLife arm (10-year warranty)

**Perfect protection and versatile installation**
Once the awning is retracted, both the fabric and the mechanical parts are safely protected inside the cassette. A number of versions are available depending on where the awning is to be fitted.

- K2000 with fully closed cassette for any type of building
- I2000 without rear wall profile, for wall installation

**Multi-section units for large patios**
2-unit coupled systems that open and retract by means of a motor are a good option for especially large patios.

- For sun protection up to 12 m wide and a projection of up to 4 m
- Continuous fabric, or jockey cover to join two sections of fabric

**N2000 – the specialist awning for niche installations**
The ultraflat front profile on the N2000 makes it the ideal choice for installation in facade niches.

- Front profile fits flush with the wall or facade
- Tilting arm closure assembly ensures the front profile closes very precisely

Semina
Youthful design meets potent technology

The compact Semina semi-cassette is great in price, functionality and design. If offers a straightforward design and outstanding quality.
Semina – Highlights and features

The compact semi-cassette – fresh, youthful aesthetic appearance
Here, the semi-circular cassette profile together with large front profile ensure the fabric and mechanical parts remain dirt-free.

- compact shape
- durable and very quiet
- weinor LongLife arm (10-year warranty)

Energy-efficient – the optional LED light bar
Even more hours of enjoyment on your patio – the optionally available LED light bar provides a pleasant warm white light in the evenings.

- highly energy-efficient
- operating life of 30,000 hours
- infinitely dimmable when used with BiConnect radio control
- can be used even when awning is retracted

Wind lock safety device – protecting your awning
The weinor tilting folding arm with proven wind lock safety device prevents the awning from being lifted up by the wind.

- proven, maintenance-free technology
- all components made of forged and extruded aluminium

Topas
The classic entry-level model

High on quality, low on budget – the weinor Topas open awning is the perfect model to get you started. As it comes with several options, you’ll always find a matching Topas no matter the type of building.
Topas – Highlights and features

Uncomplicated and wind-resistant – the low-priced awning
The Topas open awning is very wind-resistant. When combined with one of the beautiful fabrics from weinor’s extensive fabric collection, it creates a perfect atmosphere.

- 1-unit systems up to 7 m in width with 4 m projection
- Durable and very quiet weinor LongLife arm (10-year warranty)

For all types of structures
As an open awning, the Topas is an especially good fit in niches, alcoves and below balconies. Available in numerous different versions.

- The addition of an aluminium top profile protects the fabric from the elements
- 2-section systems up to 12 m wide, with continuous fabric or jockey cover

Multi-section units – to shade especially large areas
The Topas also comes as a combined multi-section unit for very large terraces.

- As a 2-unit systems up to 12 m
- Continuous fabric, or jockey cover to join two sections of fabric

Great comfort thanks to smart solutions

Would you like to be able to control your patio lighting, heating system or awning with just one handset? And for the awning to retract all on its own if it’s windy and rainy even if you’re not at home? Then BiConnect from weinor is just the right solution for you. An easy to operate hand transmitter with or without display even sends the interference-free radio signal through metal facades and thick insulating layers. And it’s even possible to control them by iPhone and iPad using the BiEasy app.
**Accessories and control** – Comfort and security

**Valance Plus – the privacy and sun protection screen**
With the Valance Plus, you get to choose the fabric pattern for your main awning. If you want to be able to see out at the same time, the fabrics of the screens by weinor® collection are the best choice.

**Paravento – side privacy screen at a flick of the wrist**
Another way to enjoy greater privacy is to open out a side screen: the Paravento provides exceptional shelter from the wind and prying eyes, in a fabric and colour to match the awning if so desired.

**Weather sensors – automatically react to wind and weather**
Weather sensors open your awning automatically when the sun comes out and can optionally retract it in the wind and rain:
- solar sensor
- sun and wind sensor (solar-powered version also available)
- sun, wind and rain sensor

**Tempura heating system – 2 variations for every living style**
Depending on individual taste there are 2 models to choose from: the classic tried and tested Tempura with traditional rounded design or the new Tempura Quadra with modern attractive clean lines.
The compact heating systems blend discreetly into every style of architecture and suits any facade. The instant heat is a superb feature and offers the ultimate in comfort combined with state of the art technology.

**Gear drive – when circumstances require this**
You can also open and retract your awning using a gear handle – for example if an electrical connection is not possible.
This is an equally good solution if you use your awning very rarely.
The **FABRIC** makes the awning

Breathtakingly beautiful and long-lasting: our wide range of fabric patterns brings a cosy atmosphere outdoors – strictly according to your individual taste.

### Attractive awning fabrics to suit every taste

**my collections**

- **momentum**
- **mélange**
- **not crazy**

**weinor’s new fabric range** consists of 3 different colour ways with a total of 143 patterns in total.

**weinor fabrics** are made from polyester or acrylic and are spinneret dyed. This guarantees outstanding durability, consistently radiant colours and great UV resistance.

Thanks to the Teflon fabric coating and state-of-the-art nanotechnology, the surface is resistant to oil, water, dirt and prevents rot.

**my collections** is also impressive in terms of environmental compatibility. The fabrics do not contain any substances harmful to health and they meet all the required environmental standards.

### Vertical sun protection with a crystal-clear view

**screens by weinor**

weinor external screens effectively protect both the indoors and outdoor spaces from overheating, whilst giving superb sun protection. They can also offer privacy from prying eyes. We recommend the screens by weinor® collection for this application.

It includes four different, high-quality fabrics, StarScreen, Perluca, Soltis® and fibreglass screen. They all offer perfect sun protection and privacy for windows, the patio and balconies. Different degrees of transparency and how much air is let through are possible, depending on requirements.
momentum, mélange and not crazy.
Choose your favourite pattern from the 3 well selected colour ways. Whether it’s timeless neutral, harmonious or creative trends – we have the right material and matching colour for every taste.
Over 200 modern FRAME COLOURS

Maximum colour safety: weinor has over 200 different frame colours for you to choose from. You can choose from diverse colours which harmonise with the architecture.

Identical colours – for a perfect match
As weinor does all the powder coating in its own workshop, you can also rest assured that different weinor products come with the same top-class colour tonality and identical gloss level.

Choose from an abundance of high-quality colours:
• 47 standard RAL rack colours, silk gloss
• 9 scratchproof, resistant trend colours with an elegant textured look (standard)
• over 150 special RAL colours

9 trend colours
Important:
Fabric qualities: weinor awning fabrics meet strict quality requirements and are produced using state-of-the-art production technology. Despite this, blemishes like creases, rippling in the seam and hem area, overstretching in the hem area and honey-combing cannot be ruled out. This has no negative impact on the quality and operating life and are not a reason for rejection.

For more detailed information: www.weinor.com/fabric_qualities

Awnings and conservatory awnings: must be retracted when it is raining or windy – risk of pooling! Fabrics that are allowed to become wet may show increased signs of creasing and wrinkling. They should therefore be extended again to dry when the weather is better.

Frame colours: depending on the frame colour ordered, we deliver all small parts, as well as gear handles and gear boxes in black (similar to RAL 9005), white (similar to RAL 9016), or in grey (similar to weinor 7319).

Award-winning design
Numerous design awards bear testimony to our commitment to provide good designs:

Embodying innovation – constant enhancements
Tried and tested weinor quality – certified production processes, top standards
Sustainability and responsibility – high environmental standards and regular checks

weinor certificate of authenticity
Every weinor product is delivered with a certificate of authenticity. Ask your retailer and partner for it!
