Beautiful sun shading even for larger spaces

You should enjoy your great summer's day on the patio without any worries. Plaza Viva provides the necessary shade so you can do just that. And in fact over **up to 30 m²**, for the whole family including friends. But Plaza Viva isn't just practical. It adapts to any house facade with its **modern, slimline design**. And the **huge selection of attractive awning fabrics** gives you the option of designing your outdoor space to your own personal taste.

Would you like to enjoy the open air? Then simply move your Plaza Viva precisely to the desired position via radio control or Smart Home.

Our tip: With the Plaza Viva **OptiStretch** version, the fabric is always held captive and the edges of the cover are prevented from billowing in winds.

Extremely stable even in windy weather

Yes, a little summer breeze is lovely. Especially if the awning remains stable despite strong gusts. Just like Plaza Viva. Thanks to the two front posts it is **extremely wind-resistant**. The stable structure guarantees that the pergola awning can remain extended **up to wind force 6** (Beaufort) and then also offers reliable sun protection too. Even with facades with not many load bearing substrates, like old buildings for example, the posts withstand strong wind loads consistently.

OptiStretch or Stretch – for a stable fabric position
With Plaza Viva OptiStretch the fabric is held captive and on all four sides. The advantages: a highly tensioned fabric and no light gap on the sides. The basic version of the Plaza Viva Stretch is tensioned on two sides and there is a light gap between the fabric and guide channel. A strong rope tensioning system ensures even fabric positioning with both versions.

3.50 – 4.00 p.m. A brief summer shower.

“So what? We’re not going to get wet!”

A dry spot even during light showers

You also keep dry with Plaza Viva during short rain showers. Our recipe for success: the adjustable telescopic post and the water-repellent awning fabric (more about our fabrics on page 10). You can remain seated in your favourite chair or enjoy a family meal totally relaxed and **enjoying being outdoors in the rain.**

Telescopic post for rain drainage
To drain off the rainwater, a minimum awning pitch is necessary. If, however, this is not always possible due to the required clearance height, the optional telescopic post helps. You can lower it **using a gear handle** to achieve the required pitch in the rain.

1

2

Really flexible
When lowering the top part of the post using the gear handle, the load on the construction is reduced and it remains inherently stable. This is possible thanks **to the wall bracket with floating bearing and the patented compensation joint on the upper part of the post.** Both guarantee that the pitch of the entire awning is ideally adjusted. The entire unit is thus protected.

Figure 1: The wall bracket with floating bearing reduces the load on the whole construction when the telescopic post lowers the awning.

Figure 2: Thanks to the compensation joint on the post the awning construction can adjust flexibly to the new pitch.

Award-winning quality, maximum comfort

Anyone opting for weinor products can rely on top quality. Only high-quality materials are used.

Plaza Viva has been awarded with the **Iconic Awards 2019** in the Building Fixtures category for its modern, slimline design.

Well protected

The all-round enclosed and robust **awning cassette** keeps the fabric and other component parts well protected from the elements. As a result, you can enjoy your wind-resistant sun protection for many years.

Wonderful in design and aesthetics

Plaza Viva is designed so that almost no fixings are visible. As a result, the **awning design** looks slimline, modern and elegant. Turn your outdoor space into a hidden gem with Plaza Viva!

Quiet and consistent operation

The Plaza Viva **tension system** ensures optimum fabric performance and positioning. It includes, amongst other things, a new flat rope and the tried and tested weinor carriage system. The flat rope is **extremely quiet and durable**, the weinor carriage system features **quiet retraction and extension that is gentle on materials**.

9.30 p.m. Children in bed ... a glass of wine on the patio.

"We can sit on our patio well into the night enjoying a cosy atmosphere."

Frame colour WT 029/70786 | Pattern 3-745 cappuccino/birch

Light and warmth – for ultimate comfort thanks to LEDs and a heating system

Your options for great comfort: enjoy evenings on the patio under warm white **LED spotlights** that can be dimmed infinitely.

You can even enjoy your patio at cooler times with the **Tempura and Tempura Quadra heating system**. It can be retrofitted and is unobtrusively attached to the house facade.

The right control to suit all needs

my collections 2

High-quality awning fabrics

Precisely my fabric!

modern basics ^{blue} · **evermore** · **hi hello!**

You can find your favourite pattern in our 3-part collection. Select a proven woven awning cover or our uncompromisingly high quality fabrics made from recycling material. No matter whether you're looking for timelessly harmonious colours or creative trends – we have the right fabric for all styles and each weinor awning.

Individual design for your outdoor living!

Over 200 modern frame colours

At weinor you can select from more than **50 standard colours** and more than **150 other RAL colours**. The powder coating done in our in-house factory guarantees **colour fastness** and a **uniform gloss level**.

Vertical sun protection fabrics with a crystal-clear view

The fabric collection screens by weinor® offers ideal privacy and sun protection for the Valance Plus and VertiTEx II with various degrees of transparency and air permeability.

Additional attractive privacy and sun protection from the front

The Valance Plus from weinor is the perfect solution for dazzling light, especially when the sun is lying low in the evening. It can be lowered using the gear handle and then also offers reliable privacy protection. The Valance Plus is also available with the fabrics from the screens by weinor® collection that let light and air through. It can be retrofitted to existing Plaza Viva systems without VertiTEx II.

Plaza Viva technical data

Max. width	6 m
Max. projection	5 m
Multi-unit systems	optional
Wind protection:	tested to wind force 6 (Beaufort)
Rain protection*	from a 4° pitch
Roof pitch	4° – 25°
Mounting alternative	installation on walls, ceilings and roofs possible
Motor drive	as standard

* The water draining effect using the telescopic technology is only achieved with a minimum awning pitch of 4° and when the telescopic post is completely lowered (exception: Valance Plus option. The minimum pitch required here is 5°). A telescopic post is not possible for the Plaza Viva with VertiTEx II. Controlled rain drainage is then only guaranteed during short showers from a pitch of at least 14°. Meets performance class 2 according to DIN 13561 resistance to water accumulation

Twice the sun protection cleverly combined

Plaza Viva with VertiTEx II – even more protection in one system

The universal VertiTEx II vertical awning extends the Plaza Viva with reliable sun, privacy, wind and glare protection – and in fact all round. Because the vertical awning can be mounted all around or on individual sides. Clever rail or zip technology ensures reliable lateral guidance. The vertical awning excels with an elegant, compact design that goes perfectly with the Plaza Viva. The cassette is available in round or square form. VertiTEx II is also available with the fabrics from the screens by weinor® collection that let light and air through.

Convenient control

Like Plaza Viva, VertiTEx II can also be operated using radio control or Smart Home.
