Awnings Patio roofs Glasoasen®

Slim, cubic awning design, which goes viral

Très chic!

Transform your balcony or patio to your very individual haven of well-being – with Smaila! The “little one” provides your outdoor paradise plenty of style within a confined space. Its stylish, square look without visible screws and an exceptionally large fabric surface area suit you and your needs for a demanding living atmosphere – for example in modern, urban surroundings.

Smaila – the highlight for you and your friends!

Hello there, I have just prepared everything for our little party this afternoon. 🍷 Snacks and drinks are already waiting for you. 🍷 And there's no need to worry about too much sun. ☀️ My beautiful new awning provides ample shade. See you soon, looking forward to it! 💕 🍷

A sun protection benefit – a solar module can be included

Smaila can optionally have a Valance Plus added. It provides sun, privacy and glare protection from the front. With an integrated solar module, it can be opened and retracted just as required and fully independently of the power supply.

You'd like to provide your balcony with a really special touch? My tip: the Smaila awning! 🏡 It has a great design and you can choose from a large number of cool fabric colours 🌈 and other mega features. 🏡

Individual design – as an expression of your personality

Like me!

Smaila offers you a host of options to set fantastic accents on the balcony or patio. Inspiring fabric patterns, unique frame colours and attractive decorative end caps make your favourite place unmistakable.

Smaila – More than a mere awning!

Exclusive fabric quality
Select your really individual fabric pattern for Smaila. No matter whether timeless neutral, harmonious or creative colours: you can find precisely the right fabric according to your taste from weinor! A further benefit for you: Smaila fabrics are spinneret-dyed, water repellent and dirt-resistant.

The latest frame colours
You can choose between more than 50 standard colours and over 150 further RAL colours from weinor. Our in-house powder coating from the weinor factory guarantees colour fastness and a uniform gloss level.

Selected attractive fabric patterns for vertical privacy and sun protection.

LED spotlights integrated into the awning cassette

More than 170 innovative and sustainable fabrics

Upon request: 5 elegant decorative panels
To provide the awning cassette with a special touch, you can equip the end caps with 5 attractive patterns. This provides your Smaila with a bespoke individual look. Of course, the end caps are also available with the same frame colour as your awning.

Premium quality for long-lasting enjoyment of your awning

Top notch!

Anyone opting for weinor products can rely on both award winning design and top quality. Only high quality materials are used. The small, cubic Smaila awning also sets standards with numerous technical highlights.

Smaila Technical data	
max. width	5.5 m (with 3 m max. length)
max. length	3.5 m (with 5 m max. width)
Cassette dimensions	21 x 15.5 cm (W x H)
Wind resistance	Tested to wind force 5 (Beaufort scale)
Angle of pitch	Up to 40° For Valance Plus up to 20°
Awning drive	Motor (as standard) gear handle
Valance Plus drive	Gear handle (as standard) Remote-controlled motor (solar)
Valance Plus patterns	StarScreen, Soltis 86/92, my collections 2

Well-protected, durable and variable

The all-round enclosed awning cassette protects the fabric and technical components safely against the elements. This ensures a long operating life for your sun protection – just as the individual high-quality manufactured technical components.

Weatherproof awning cassette

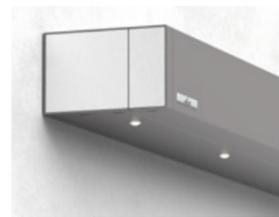

Strong, low-noise weinor LongLife arm

Wind lock safety device protects against wind exposure

Various installation options

Besides the standard wall mounting, Smaila can also be easily fitted if there are special constructional requirements. Here, weinor offers an individual solution for all balcony and patio situations.

Flush wall mounting

Roof mounting

Rafter bracket installation

Atmospheric light, powerful warmth

Your options for greater comfort: Spend pleasant evenings on the patio under **LED spotlights** which can be dimmed steplessly and are integrated in the awning cassette. You can also enjoy your patio at cooler times with the **Tempura heating system**.

You can spend many enjoyable hours on your patio with Smaila. 😊 Fantastic fabric patterns and cool features such as LED lighting and a heating system transform your outdoor area to a perfect oasis of well-being. 🌞

The right control unit to suit all needs

weinor controller packages

Further information is available under www.weinor.com/control

Whether using a gear handle, hard wired, remote control or Smart Home, hand transmitters, a smartphone or an automatic weather system – a wide range of control options are available for the operation of weinor awnings and accessories from weinor BiConnect or Somfy. Simply select the suitable control package Manual, Basic, Comfort or Smart. LED lighting and the heating system can be dimmed fine-tuned using remote controls or Smart Home. Your weinor retailer is happy to advise you competently.

Please note that the systems BiConnect and Somfy available from weinor cannot be combined.
